## **ADELAIDE BRIGHTON SECURES LONG TERM ENERGY REQUIREMENTS**

Adelaide Brighton announces that it has successfully concluded arrangements to secure long term contracts for future energy requirements for the Company's major production facilities.

Details of the contracts are:

- A five year gas supply agreement commencing on January 2010 for the Birkenhead and Angaston plants in South Australia.
- A 10 year contract for gas pipeline capacity on the Moomba Adelaide Pipeline and the Angaston lateral pipeline for the Birkenhead and Angaston plants in South Australia commencing January 2010.
- A 15 year contract for the supply of power to the Cockburn Cement Munster, Kwinana, Dongara and Woodman Point manufacturing and processing plants. The contract is subject to Ministerial approval which is expected to be given after the Western Australian State election.

Complementing the above is an existing 10 year contract for the supply of coal to the Munster operations which commenced at the beginning of 2008 and a contract for the supply of gas to the Dongara lime plant in place until mid 2014.

Managing Director, Mark Chelley said "In the current tight competitive energy market, Adelaide Brighton is pleased to have negotiated a surety of supply for the Company's major cement and lime plants"

**M Chelley**  
Managing Director
